

WIRE MESH CLIP PLACEMENT

WIRE MESH CLIP PLACEMENT DIAGRAMS

For the standard wire mesh system shown in red, the number of wire mesh clips needed per section is 7.

Additional wire mesh clips are recommended in areas with heavy snowfall. In cases of snow, clips are shown in blue, placed in addition to the standard placement. The number of wire mesh clips needed per section is 11 total. Please reference diagrams below for snow placement.

We recommend purchasing slightly more clips than needed in case of error.

Wire mesh clips can be applied on either side of the enclosure if using tee or 4-way posts. Placement may depend on where animals are placed in the enclosure. It's possible to install wire mesh on both sides, but usually not necessary. Please ask your sales representative for specific recommendations for unique situations.

WIRE MESH CLIP PLACEMENT ON GATES

3 RAIL GATES

For 4 ft and Section gates, 6 wire mesh clips are needed. For 12 ft gates, 9 wire mesh clips are needed. There are no additional clips needed for snow. Please reference diagrams below for wire mesh clip placement on 3 rail gates.

4 Foot & Section Gate (~8.4ft) Placement

Our steel Boomerang Brackets allow you to extend any wire mesh beneath gates to keep animals from getting underneath. Refer to page 34 on how to install Boomerang Brackets to Buckley Gates.
